Category 7B Recertification Class

Inspecting for Termites and Other Wood Destroying Insects

October 15, 2009

1 pm - 5 pm

\$75.00

Approved for 8 NJDEP Category 7B Recertification Credits and 4 HIAC CEU's

This 4 hour course has been approved by the NJDEP Pesticide Control Program for 8 recertification units (continuing education) required for licensure in category 7B. Although a home inspection does not include a wood destroying insect inspection, home inspector's frequently encounter active and past signs of wood destroying insect damage and/or treatment for these insects.

One of the largest complaints against a home inspector's errors and omissions insurance policy concerns wood destroying insects. The course is designed to teach inspectors how to identify and distinguish the difference between the most common types of wood destroying insects and wood destroying organisms and the proper treatment methods. The course reinforces construction design principles and structural concerns and how these insects affect them.

Learn how to conduct a proper inspection for all types of wood destroying insects and their difference from wood destroying organisms. Also included is a review of chemical and non-chemical treatment systems and their effectiveness in controlling and eradicating these insects so the questions posed by clients can be answered. A discussion of new trends and laws affecting this profession are included. Course material is included.
