## ***Pest Control Courses – Get Double Credit!!!***

All courses have been approved for credit by the NJ HI Advisory Committee and the NJ DEP

### ***Core Recertification Class***

## ***Compliance Issues with the Laws Regulating Home Inspectors and Pest Control Applicators***

***October 16, 2009***

***10 am - 12 pm***

***\$50.00***

***Approved for 4 NJDEP Core Recertification Credits and 2 HIAC CEU's***

This 2 hour course has been approved by the NJ HIAC for 2 CEU's and the NJDEP Pesticide Control Program for 4 recertification units (continuing education) required for licensure in category 7B and the PA Dept. of Agriculture for 4 continuing education units required for licensure in category 12. Although a home inspection does not include a wood destroying insect inspection, home inspectors are frequently asked to perform this type of inspection also. The course will review current Home Inspection and DEP laws and regulations allowing for these inspections. Course material is included.

### ***Category 7B Recertification Class***

## ***Identifying Signs of Wood Destroying Insect Activity and Signs of Treatment during a Home Inspection***

***October 16, 2009***

***1 pm - 5 pm***

***\$75.00***

***Approved for 8 NJDEP Category 7B Recertification Credits and 4 HIAC CEU's***

This 4 hour course has been approved by the NJ HIAC for 4, CEU's and the NJDEP Pesticide Control Program for 8 recertification units (continuing education) required for licensure in category 7B and the PA Dept. of Agriculture for 8 continuing education units for licensure in category 12. One of the largest complaints against an inspector concerns wood destroying insects.

Although a home inspection does not include a wood destroying insect inspection, home inspector's frequently encounter active and past signs of wood destroying insect damage and/or treatment for these insects. The course will enhance your inspection abilities by learning to identify some of the signs of WDI infestation and various types of treatment for them. Also discussed are report writing strategies to avoid legal issues. The course reinforces construction design principles and structural concerns and how these insects affect them. Course material is included.
